

The Lomond Press

VOL. 4 NO. 50

LOMOND, ALBERTA, FRIDAY, JULY 23, 1920

\$1.00 PER YEAR.

The Press' Shop Window

We have been intimately acquainted with Alberta weather ever since the spring of 1909 and have no recollection of any such period of intense heat as experienced from the 14th to the 20th of this month. Night and day was the same and one could sleep without discomfort with no more bed linen than a screen door. Had it not been for the heavy rains on the 11th and 12th our crop prospects would have been pretty well cooked up and Bradstreet's would soon have been filled with chattel mortgage registrations. As it stands, the break on Tuesday night showered most of the surrounding district, and we are fairly safe for a few more days. Undoubtedly the yield will be greatly

reduced on many fields. Tuesday's storm was accompanied by a most vivid display of electrical disturbances. The Doane blacksmith shop was struck and torn up considerably and other places suffered minor shocks.

Manitoba and Saskatchewan grain crops were seriously affected by the drought and intense heat of the past week. South Alberta got the rain first, but most of the west has since been favored with rainfall.

Dad Damery still maintains that Lomond will market an eight hundred thousand bushel wheat crop. We provide the oysters if his judgment proves better than ours, which places the estimate at six hundred thousand bushels. Dad is a pretty shrewd character in the grain business and somehow of other we hope he wins out.

We have been accused of knocking

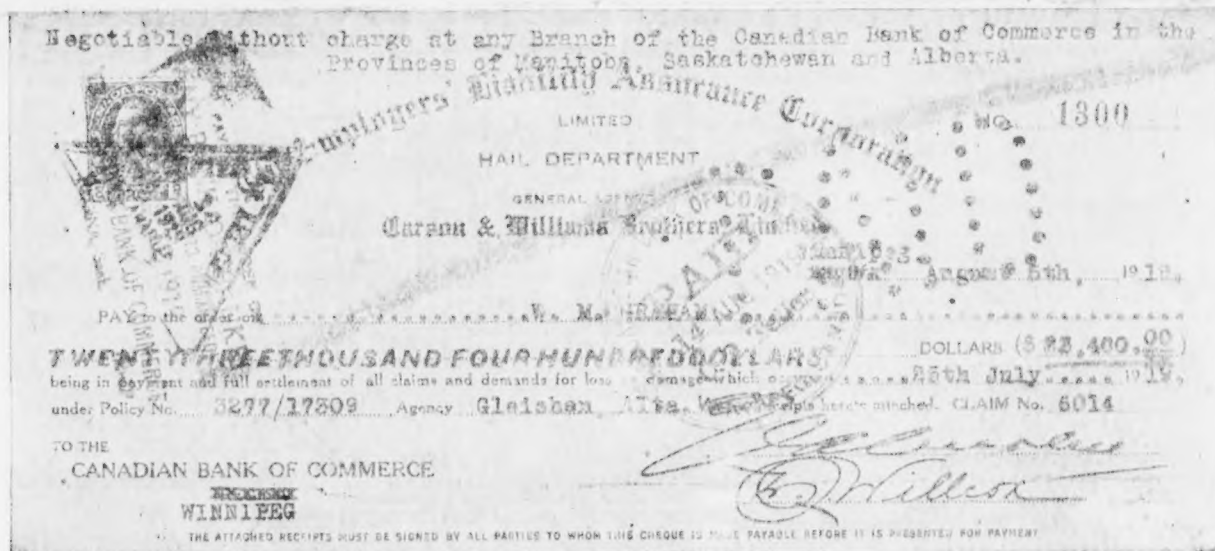

the country over the fact that certain prominence had been given to the havoc wrought by the wind, the worms and poor farming. We regret that any person should presume to draw such conclusions from our attitude. Those of you who are familiar with the general conditions must admit that our comments on the situation were quite conservative. If anyone can show us any advantage to be gained through deluding ourselves and endeavoring to delude outsiders, we will be perfectly willing to change our tactics. It is time we began laying aside this mantle of false colors and got down to brass tacks in farming this jolly well country of ours. As we stated in a previous issue credit is pretty well shut off here now, and we are informed through reliable sources that a more close scrutiny will be given to the methods of farming before a man is extended a line of credit

another year. It must be stated here, however, that the Lomond district is undergoing a thorough renovation in farming this year. More summerfallow is being prepared than during any previous year. As the old saying goes, "this is a great next year country."

Lomond's fourth annual fair is but a week away. The board of directors is again up against an unfavorable season yet everything is being done to make the fair even better than the usual success. Entries will undoubtedly be profuse in most departments.

Sir James Loughheed of Calgary is the minister of the interior in Arthur Meighen's new cabinet. It is through the department of the interior that all irrigation negotiations must pass. Sir James is personally an ardent irrigation enthusiast, so the circumstances are very favorable for us in the west to approach the government with irrigation problems.

SEE THE NEW

Frost & Wood Binder

WE WILL HAVE ONE ON THE FLOOR IN A FEW DAYS

The new Frost & Wood binder is going to cut a big figure on the Western Canada machinery market this fall. The Frost & Wood has always been recognized as one of the best machines made, but the new binder embodies several vitally important features but recently evolved by the world's leading mechanical scientists. This is not a freak gotten out to cover a failure, but an improvement on something already good.

Make Your Poultry Pay

Personally, we are badly disappointed over the visit of the hen expert. The Lomond Agricultural Society is five dollars out of pocket and we are still boarding a lot of useless hens. However those who heard him speak will benefit materially thereby and quite a number were lucky enough to have their flocks culled over. There is no doubt over the effectiveness of the method the department is teaching. It is meeting with universal success far and wide. Another important feature was the discussion on the co-operative egg circle. The government grades, stores and markets the eggs and the results in other districts have given the producers a premium of three to five cents a dozen over the old system. The people from Midway appeared to be the most interested and a committee was appointed to undertake operations in that district.

Perhaps it was on account of the excessively hot weather, but the general public did not appear to signify the interest the subject demanded. However, may this be a good start in the right direction.

The Calgary daily papers announce another two cent advance in the price of sugar. This is in sympathy with an advance of three cents made by the Montreal refineries the other day. The increase is the direct result of heavy exportation to the States and the exchange rate in favor of the American dollar. Seven dollar raspberries and twenty-six cent sugar is very effective prohibition.

LOMOND, ALBERTA, JULY 23, 1920

Clifton's Council Minutes

A meeting of the Council was held on Monday, July 12th, in the municipal office, Lomond, there being present J. Rodgers, Reeve, G. Hornberger, F. Earl and E. R. Barnett.

Minutes of previous meeting were read, and moved by E. R. Barnett that motion of previous meeting regarding appropriation for road work for the year 1920 be corrected to read "eight hundred dollars for new work incurred for the season 1920." This motion was carried and minutes were then approved as correct.

Moved by F. Earl that letter from the Dept. of the Interior regarding preservation of birds be tabled.

Regarding handling charges for seed oats it was moved by J. Rodgers that we tender the Home Grain Co., of Lomond, payment at the rate of 2c per bushel to include handling and draying. J. Rodgers voted for the motion and E. R. Barnett, F. Earl and G. Hornberger against, motion was lost. Moved by E. R. Barnett that matter be tabled till next meeting, E. R. Barnett, F. Earl and G. Hornberger voting for and J. Rodgers against.

Moved by E. R. Barnett that bill of C. W. Bly amounting to \$12.00 be paid.

Mr. Joe Brenner being present it was moved by E. R. Barnett that we hear Mr. Brenner in regard to the Spring. Carried. After some discussion in which Mr. Brenner stated that in the case of the one acre of land under dispute being reverted back to him he would require damage which he assessed at \$400.00. The reeve proposed to Mr. Brenner that we revert the said one acre of land containing the spring back to Mr. Brenner and pay legal expenses incurred to date, and refer the matter of damages to a court of arbitration. A motion to that effect was moved by E. R. Barnett. G. Hornberger, E. R. Barnett and J. Rodgers voting for, and F. Earl against. The motion was carried. Following the above motion Mr. Brenner stated that he could not at present make any kind of a settlement with the council as the matter had been placed in the hands of his lawyers and he would have to consult them. Mr. Brenner in his remarks and referring to the roadway on the south side of the S. W. 1/4 12-15-20 stated that the borrow pit which had been made in connection with a fill on said roadway extended over the fence line on to his farm land.

Following the presentation of a petition from Division No. 5 asking the Council not to allow any animals to run at large at any time of the year, within the said Division, it was moved by E. R. Barnett that we table the matter until next meeting, and, that each Councillor in the interval, ascertain the feeling of the ratepayers in their respective divisions regarding the matter of animals at large. Motion was carried.

Regarding hail insurance on unpatented lands it was moved by F. Earl that this Council of the Municipa-

District of Clifton No. 127 of the Province of Alberta guarantee to the Hail Insurance Board payment for all hail insurance taxes on unpatented lands within this Municipal District when O. K.'d by the Secretary.

Letter was read from A. G. Virtue of Lethbridge, regarding land expropriated for road purposes off the S. W. 1/4 9-15-19, owned by D. Nichol, and it was moved by E. R. Barnett that we offer Mr. Nichol through Mr. Virtue \$30.00 per acre for two and a quarter acres and we move the fence two rods further north according to survey.

The following were approved for payment:

A. H. Peterson, road work division one, \$15.00.

F. Newton, Lomond cemetery, \$500.

Road work, Division 2, \$95.00.

Road work, Division 2, \$152.00

Western Municipal News, Travers Pound, \$3.71.

The minutes of the Public meeting held in Travers, on June 30th. were read.

Moved by E. R. Barnett that the Secretary take up the matter of relief for the coming winter, with the Department of Municipal Affairs.

Moved by J. Rodgers that Secretary take up matter of Agricultural Agent with the Dept. of Agriculture Edmonton.

Moved by E. R. Barnett that Secretary take up the matter of the Franchise with the Dept. of Municipal Affairs and

also communicate with our Provincial members J. McNaughton, and the Hon. A. J. McLean and also with the Secretary of the Association of Municipal Districts.

Referring to the motion re auditing it was moved by E. R. Barnett that we still retain the Lomond Realty Co., as auditors they having accepted the position previous to the public meeting.

Moved by J. Rodgers that we procure seven copies of the Municipal Districts Act.

Meet me at the Lomond Fair!

Beet Web-Worm Doing Heavy Damage

Those green worms are again making their appearance though apparently not so numerous right here as last year. Over at Stavely they are reported to have held up a freight train, being so thick on the tracks. The bug experts maintain they are not harmful to grain crops, eating only such plants as happen to be members of the beet family. According to this the Russian thistle is sure some beet.

LOMOND

Everybody Playing Tennis

Tennis appears to be attracting more than its usual amount of attention just now in Lomond. Since the club got a little organization effected and arranged an elimination series with the ultimate idea of staging a public tournament everybody is stampeding to the courts in their leisure moments to drill into efficiency for the final contest. Below is the result of the draw for the first series of games.

AULTMAN-TAYLOR

The Big Tractor with the Power for Big Jobs

HERE'S a tractor that has the rugged, brute strength for the biggest of power jobs. And with it, is combined unusual operation economy. This Aultman-Taylor 30-60 will practically never wear out. Put it to work on any job, farm or road, and watch results.

The Ultimate Tractor for Road Work

Actual performance has shown that the Aultman-Taylor 30-60 will build more miles of road in a given time, build them better, at much less cost than any other power---and at a saving of **fully 50% over horse labor.**

The 30-60 is built big, with the power to do big jobs. Road building is one of them.

Power farming is another. Come in and See Us
The larger farms are using the 30-60 with unequalled success to wade through farm power work---heavy plowing, discing, drilling jobs and the like---that horses simply cannot pull through. It has the pull or drive power to carry on through any job on the farm---belt or drawbar---without a stop.

Dated at Lomond, Alta., July 19th., 1920.

ESTRAY

1 dark bay mare, white face, 4 years old, broken to work, weight between 1150 and 1200, also one black gelding, white star on forehead, 13 years old, weight about 1000, both had halters on when strayed. Orie O. Donily, Lomond.

Mrs Jonasson, of Reykjavik, Iceland, has been shopping on a large scale in New York for her chain of four stores in Hafnarfjord, Isafjord and the Icelandic capital, and naturally enough, a reporter has been interviewing her. The Evening Post of New York prints the interview, and the reader gets an interesting picture of Modern Iceland, where "there are no railways and no

street cars, but there are lots of automobiles, and where they cannot go the people ride on horse back." One expects strangeness, and certainly a land without railways or street cars answers the expectation; but in other ways Iceland appears rather surprisingly like other countries. The motion picture theatre is there; "legitimate drama" has its playhouses, with a public interested in the plays of Ibsen and Bjornson; the department store is part of the everyday life of the people; although the "very American method," with telephones, cash registers, and other paraphernalia of these miscellaneous bazaars that characterize the chain of stores operated by Mrs Jonasson and her partner, Miss Halldorsson, doubtless are derived from the 16 years that Mrs. Jonasson lived in Canada before she returned to Iceland, some 14 years ago, and began organizing them. Swimming, she told the reporter, is one of the principal sports of the country---but not in the ocean, for nature has provided hot springs where the Icelanders do their swimming. As for the climate, it is "mild in summer and actually there is only one month of snow in winter." As elsewhere, the children wend their way to schools and high schools, but never do they have to pass a saloon coming and going, for Iceland is a country of very effective prohibition.

ASSOCIATED FARMERS, LTD.

O. C. BARBER, Manager,

LOCALETS

Mrs. Gabrielson and Mrs. Cutters, and two Misses Cutters, of Idaho Falls, Idaho, are visiting their two sisters, Mrs. Salter and Mrs. Baker.

Mr. and Mrs. S. J. Fero and family of Sioux City, Iowa, left this week for Washington after a visit of a couple of weeks with Mrs. Fero's brother, A. C. Little.

Mrs. Walkey's aunt, Mrs. Ed. Irving of Nanaimo, B.C., visited with her for a few days during the week, going on to Ontario.

A large crowd attended the masquerade given at the Snake Valley School, two miles south and six miles west of Lomond. Prizes for the best make-ups were awarded to Miss Jean O'Range and Peter Carlson.

The dance was given under the auspices of the Ladies' Club of that district. A good supper was served and everyone had a fine time.

Speaking of fruit prices, the Niagara penninsular grape growers were pretty frightened on the advent of prohibition for fear their wine grape market would be destroyed, but have this year contracted their magnificent crops at a price four times higher than usual, the grapes to be sold for domestic consumption. We take it from this that grapes go four times as far for table use as when used in making booze.

Tenders Wanted

LOMOND CONSOLIDATED SCHOOL DISTRICT, NO. 20

Tenders will be received by the undersigned up till Friday, Aug. 20, 1920, for the driving of the school vans in the four divisions of the Lomond Consolidated School District, No. 127, viz: Dufferin, Deepwater, Ocean Wave and Rolling Prairie. A separate vehicle to be provided for each division. Successful tenderers will be required to furnish bonds of indemnity. The lowest or any tender not necessarily accepted.

NOTICE

An extra special prize which came in too late to be included in the prize list, donated by the United Grain Growers, Ltd., is as follows:—100-lb. sack of Purity flour for the best loaf of bread made from Purity Flour, and 50-lb. sack of Purity flour for the best dozen buns made from Purity flour. Entries can be made with W. H. Smith, secretary of the Lomond Agricultural Society.

H. F. Burne has succeeded in enlarging his grocery department and at the same time retaining an adequate corner for the butcher shop, since installing the new refrigerator, which holds apartments for produce as well as meats.

Dennis Williams has enjoyed the novelty of marketing quite a number of crates of strawberries during the past two or three weeks grown on his farm three miles north of Lomond. The berries were undoubtedly superior to any of the imported products and shows what can be accomplished by a little perseverance and the aid of a shelter belt of trees. Mr. Williams also has started apple trees and numerous other small fruits.

H. E. Elves was over to Nanton last week crying an auction sale.

The fans who were brave enough to endure the intense heat on Monday night were treated to a very interesting game of ball. The home boys got away to a bad start but managed to wind up victorious. Rubble of Enchant pitched the game. Numerous errors at the "psychological moment" characterized the playing on both sides. The visitors came over with practically no support, so we take it that Vulcan is pretty dead, baseballly speaking.

\$5.00 REWARD

Above reward will be paid for the recovery of 1 steel grey mare colt, one year old, unbranded.—B. H. Blake

POUND NOTICE

NOTICE IS HEREBY GIVEN that by virtue of power granted under Section 208 of "The Rural Municipalities Act" and of By-Law No. 1 of the Municipal District of Clifton, No. 127, that the following animals were impounded in Pound kept by the undersigned on the N. E. ¼ of 2-16-20, 2 miles south of Lomond.

Impounded July 3rd.

1 sorrel mare, about 4 years old, weight about 1250, indistinct brand on right shoulder.

JOHN R. McKAY,
Poundkeeper.

"A spin in the country! The hamper full of good things to eat, the tank full of Imperial Premier gasoline and the crank-case filled with Imperial Polarine. Nothing can mar the day's pleasure."

Thorough Lubrication

IMPERIAL Polarine can be depended on to give you thorough lubrication, to keep the engine running quietly and faultlessly, to take you a 100 miles or 1,000 miles at the least cost for fuel, oil and repairs.

Imperial Polarine forms a piston-to-cylinder seal that maintains compression and utilizes the full power of the fuel. It spreads a thin, yet unbreakable oil film over every friction surface that minimizes wear—it is the *perfect lubricant*.

Imperial Polarine will not break up under high operating heats. It burns freely with hardly a trace of carbon. Costs less because it saves depreciation and fuels. Sold in gallon and four-gallon sealed cans, half-barrels and barrels, also 12½-gallon steel kegs, by dealers everywhere.

Look for the Imperial Polarine Chart of Recommendations when you buy oil. It shows which of the three grades described below is recommended for your car. Use the grades specified, *exclusively*.

IMPERIAL POLARINE (Light medium body) **IMPERIAL POLARINE HEAVY** (Medium heavy body) **IMPERIAL POLARINE A** (Extra heavy body)
